And _____ surety (sureties) are held and firmly bound unto the Metropolitan Sewer District of Greater Cincinnati ("MSD"), in the penal sum of Ten Thousand Dollars (\$10,000.00) for the payment of which we hereby jointly and severally bind ourselves and our legal representatives

The conditions of the above obligation are such that, whereas, the above-named principal has made application to the Director of MSD for a license as a sewer tapper, for the period ending December 31, _____, to carry on the business, undertake the employment and do the work of tapping and making connections with the public sewer and drains of MSD and of building for private use such lateral drains, with approved fixtures and laterals to connect therewith, as the Director of MSD might from time to time authorize in each particular case to be made in accordance with applicable MSD rules and Regulations and in compliance with Federal, State and local safety laws and regulations including, but not limited to, Occupations Safety and Health Administrations requirements.

Now, if the said principal shall well and faithfully and in a workmanlike manner make, perfect and perform the several connections with necessary fixtures and laterals; and conforms to any and all Rules and Regulations and orders of MSD; and completes installation and repair of all work undertaken; and promptly, at the proper time, replaces and restores the street to as good a state and condition as said principal found it previous to opening the same; and if the said principal shall indemnify and save MSD harmless from all loss or damage that may be occasioned in any way by accident or the want of care or skill on said principal's part, or on the part of anyone in the employ of said principal, in the prosecution of any or all of such work undertaken by said principal, including all costs and expenses arising from the defense of said claims; then this obligation shall be void; otherwise, the same shall remain in full force and effect.

Further, when there is an existing lateral, T or Y branch, that said principal is going to connect to, then the existing lateral must be tested to see if the pipe is operational for use and there must be an MSD inspector present to observe and approve same.

Dated at Cincinnati, this _____ day of _____, 20_____.
