MSD Lick Run Project Update:

Nighttime Work at Intersection of Westwood Avenue and Quebec Road

CINCINNATI – Nighttime construction work will occur at the intersection of Westwood Avenue and Quebec Road in South Fairmount starting Monday, March 19 and continuing through Friday, March 30, pending weather and site conditions.

The work will occur approximately between 7 p.m. and 7 a.m. each night. Traffic will be maintained along Westwood Avenue and Quebec Road, but there will be lane restrictions.

The Metropolitan Sewer District of Greater Cincinnati (MSD) and its contractor, Sunesis Construction, are relocating a water main during this period to make room for the installation of new storm sewers along Quebec Road and side streets.

This effort, part of the Lick Run Project (www.projectgroundwork.org/lickrun), will keep stormwater out of MSD's combined sewer system and help reduce combined sewer overflows (CSOs) into the Mill Creek. The new storm sewers will collect rainwater and convey it to the Lick Run Greenway in South Fairmount.

During reconnection of the water main, there will be a water outage for homes and businesses along a portion of Quebec Road between 10 p.m. and 5 a.m. from approximately Sunday, March 25 through Thursday, March 29. Greater Cincinnati Water Works (GCWW) will be notifying residents by letter.

Please see the attached map showing the area impacted by the water outage and the area of lane restrictions.

For additional information about the project, please contact MSD Engineering Customer Service at (513) 557-3594 or MSD.Communications@cincinnati-oh.gov or visit www.projectgroundwork.org/lickrun.
