TRAFFIC ALERT

Lane Restriction on Spring Grove Avenue ~May 11 through late July

CINCINNATI – Lane restrictions will occur on Spring Grove Avenue in Camp Washington between Township and Straight streets beginning May 11 through late July.

The project, known as Spring Grove Avenue -Township Street Sewer Improvements, is located between 2629 and 2891 Spring Grove Avenue. As part of the project, the Metropolitan Sewer District of Greater Cincinnati (MSD) will be relocating 21-inch-diameter and 12-inch-diameter combined sewers and rehabilitating approximately 800 linear feet of combined sewers using trenchless technologies.

The contractor will begin by relocating a 21-inch-diameter combined sewer near the intersection of Spring Grove Avenue and Straight Street.

Immediately following the 21” combined sewer relocation, MSD will also begin relocating a 12” combined sewer near the intersection of Spring Grove Avenue and Township Street.

The final part of the project is the sewer rehabilitation.

During rush hours, (7 – 9 a.m. and 4-6 p.m.) all lanes along Spring Grove Avenue will be open in the construction zone. During non-rush hours, one lane of traffic will be maintained in each direction. We urge you to plan your trips accordingly.

Please see the attached project maps.

MSD’s construction contractor is Howell Contractors, Inc. Construction activity is anticipated between 7:00 a.m. and 5:30 p.m. Monday through Friday.

In addition to traffic inconveniences, typical construction-related disturbances such as noise, dirt and vibrations should be expected throughout the construction period.

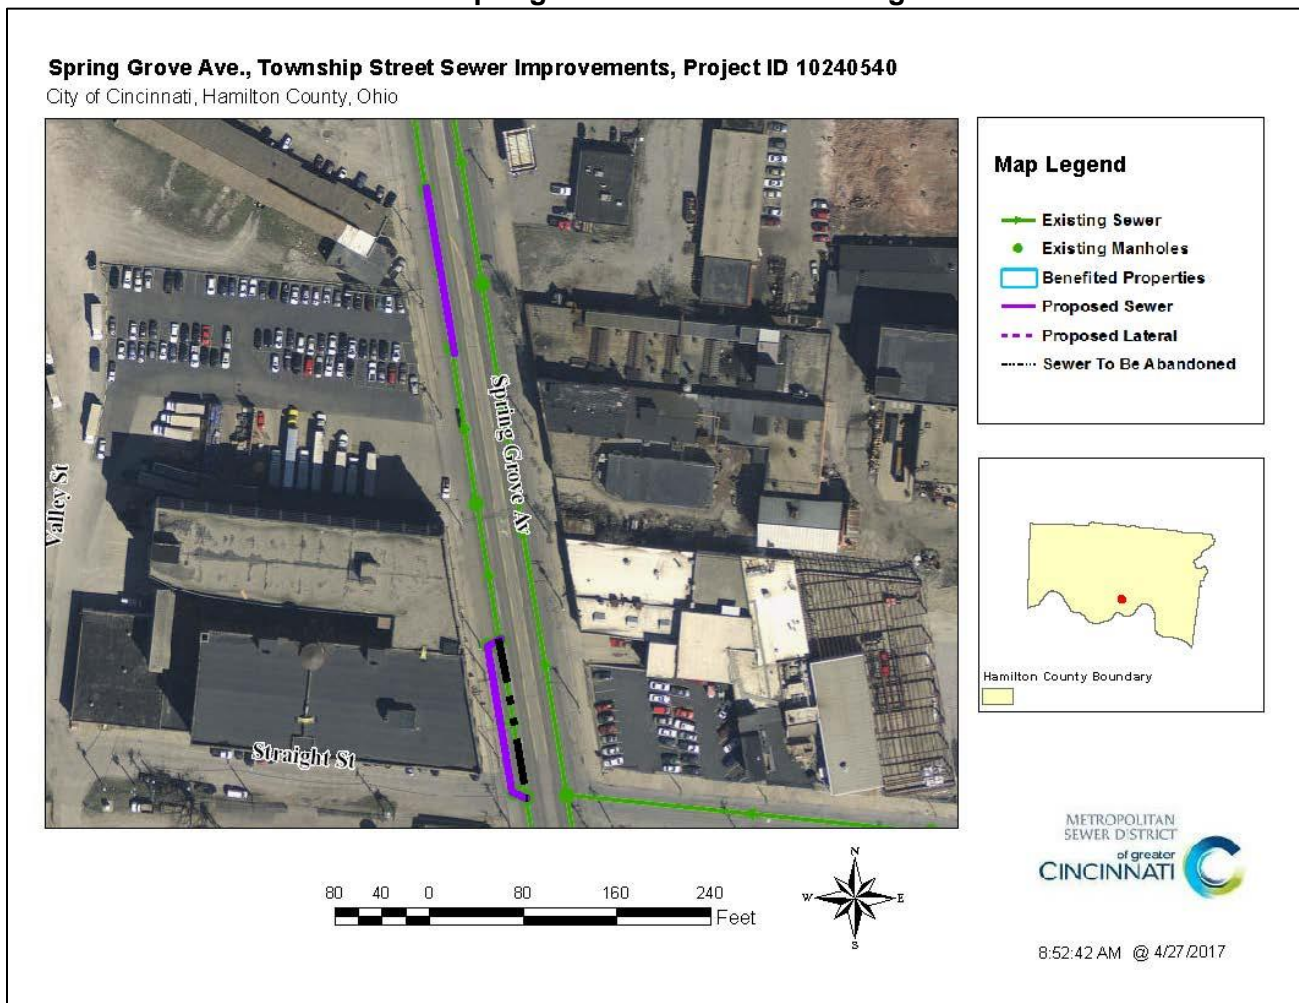

This project is part of Project Groundwork, MSD's multi-year plan to reduce sewer overflows into streams and rivers in Hamilton County. Project Groundwork will protect public health, improve our local streams and rivers and enhance our communities.

For additional information about the project, please contact MSD Engineering Customer Service at (513) 557-3594 or MSD.Communications@cincinnati-oh.gov.
