Traffic Alert Update - Green Township
Upper Muddy Creek Interceptor Project

Ebenezer Road Closed at Muddy Creek Road August 2 through Mid-September

CINCINNATI – Ebenezer Road between Werk Road and Cleves Warsaw Pike will be closed to thru traffic from Monday, August 2 through mid-September, pending weather and field conditions. This work is part of the ongoing Upper Muddy Creek Interceptor (UMCI) project in Green Township.

Ebenezer Road is open to local traffic until the point of closure at Muddy Creek Road. Thru traffic will be detoured via Werk Road, Westbourne Drive, Muddy Creek Road, Neeb Road, and Cleves Warsaw Pike and vice versa. An alternative detour is Werk Road, Devils Backbone Road/Muddy Creek Road and vice versa. Please see the attached road closure and detour maps.

The Metropolitan Sewer District of Greater Cincinnati (MSD) and its contractor, Lykins Contracting, LLC., are installing a new 1.5-mile-long sewer along Muddy Creek Road from Devils Backbone Road to near Sidney Road. The new sewer will be 3 feet in diameter and made of HDPE plastic.

In addition to traffic inconveniences, typical construction-related disturbances such as noise, dirt and vibrations should be expected throughout the construction period.

For additional information about this MSD project, please contact MSD Engineering Customer Service at (513) 557-3594 or MSD.Communications@cincinnati-oh.gov.
