MSD Lick Run Project Update:
Construction to Start Along Wyoming Avenue

CINCINNATI – The Metropolitan Sewer District of Greater Cincinnati (MSD) will be installing storm sewers along Wyoming Avenue and associated side streets in West Price Hill starting this month. Construction is anticipated to be complete by Spring 2018.

The project will collect stormwater from local streets (Wyoming, Latham, Manss, Beech, and Minion avenues) and ultimately convey it to the Lick Run Greenway in South Fairmount. See attached project map.

This effort, part of the Lick Run Project (www.projectgroundwork.org/lickrun), will keep stormwater out of MSD’s combined sewer system and help reduce combined sewer overflows (CSOs) into the Mill Creek.

The project also includes converting and existing combined sewer to a storm sewer and will relocate a combined sewer along Wyoming Avenue.

Construction will occur primarily Monday through Friday during daylight hours, depending on weather and the contractor’s schedule. Work on weekends may be necessary at times. MSD’s construction contractor is Ford Development Corp.

Temporary lane restrictions will occur along Wyoming and side streets Beech, Latham, Minion, and Manss in the vicinity of the construction. Access to homes and businesses will be maintained, but delays may occur.

For additional information about the project, please contact MSD Engineering Customer Service at (513) 557-3594 or MSD.communications@cincinnati-oh.gov or visit www.projectgroundwork.org/lickrun.
